INTERVIEW SUMMARY

Commissioner for Patents
P.O. Box 1450
Alexandria, VA 22313-1450

Dear Examiner:

On May 13, 2010, a telephone interview was conducted in the above identified application between the undersigned (representing the Applicant) and Examiner Kevin C. Joyner. During the interview the currently claimed invention was discussed and contrasted with two cited art references (U.S. Patent No. 5,480,615 to Curry and U.K. Patent Application GB 2 354 443 to Watling). In particular, the limitations added to the claims in Amendment "D", which was filed on May 6, 2010, were discussed and contrasted with the Curry and Watling references, as generally presented in the filed Amendment.

The Examiner stated that the claims as presented in the Amendment appear to overcome the cited references, but that he would need to perform a further search and analysis. As such, no formal agreement was reached.

Dated this 24th day of May, 2010.

Respectfully submitted,

/Scott A. Woodbury/ Reg. #55743
